Using a 'Logic Model' for organization and management of the project

- ▶ to guide the project and assure planners that they are processing on sound lines
- ▶ Logic Modeling is a Systematic Approach
- ▶ Well-defined methodology with clearly defined and quantifiable performance measures

What does a 'Logic Model' Look Like?

This is what we will measure!

SHORT-TERM
OUTCOME

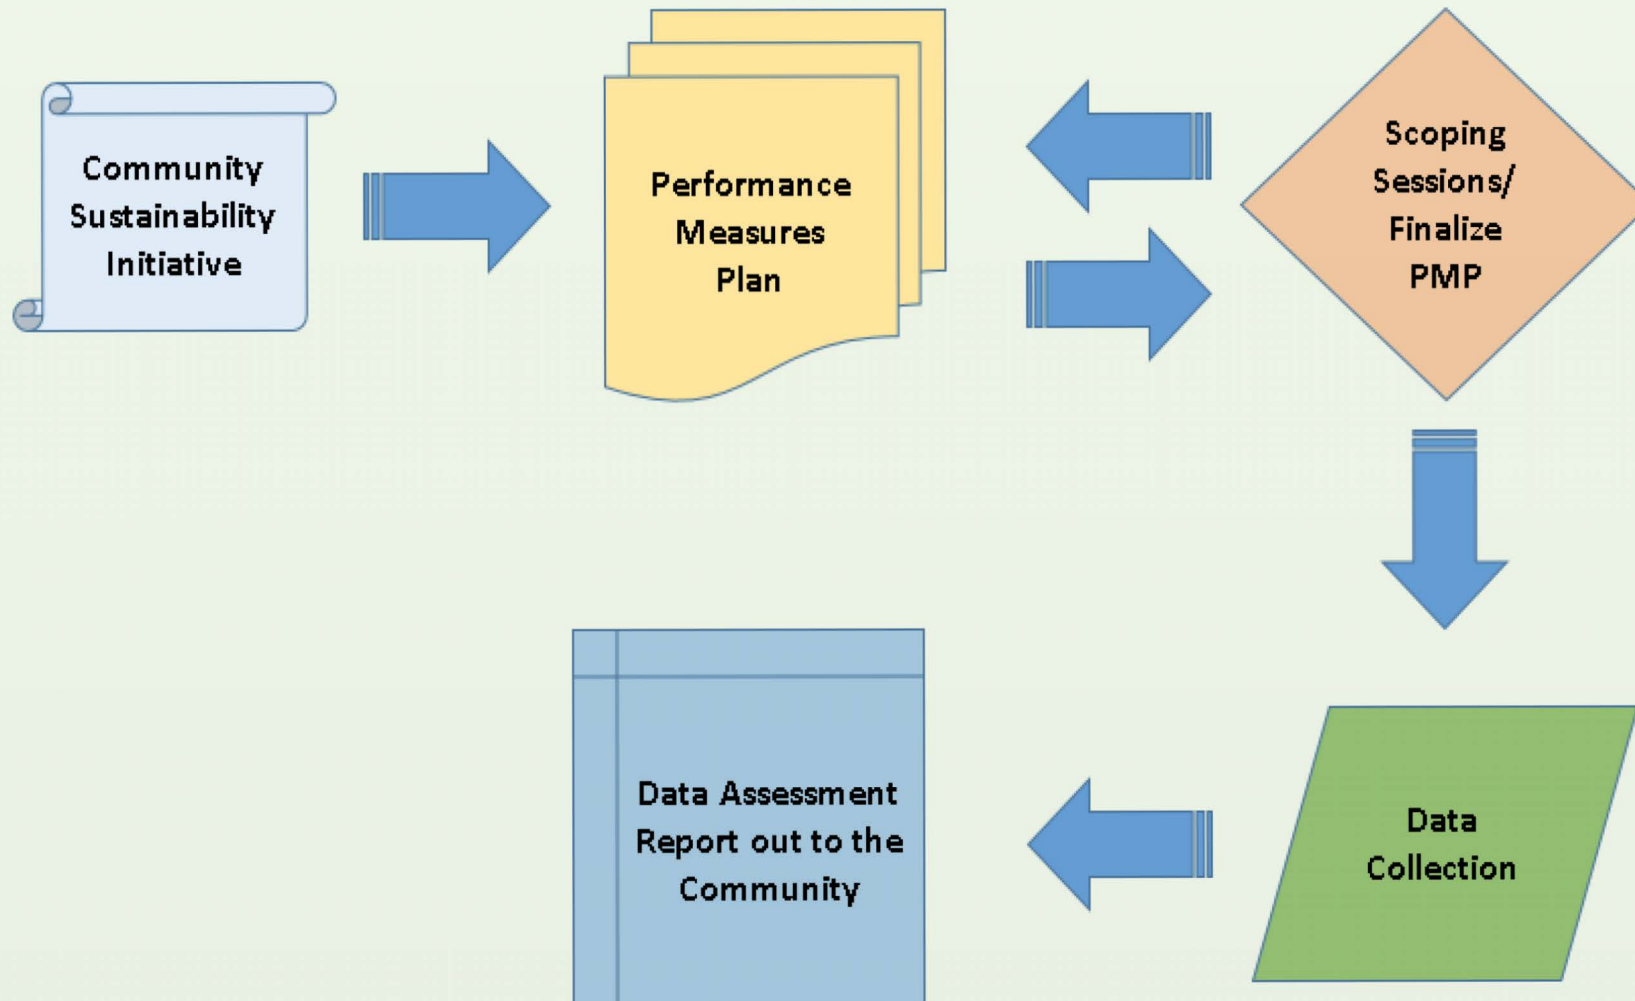

INTERMEDIATE
OUTCOME

LONG-TERM
IMPACT

Alexandria/Pineville MVD project: EPA as facilitator for this collaborative effort

- ▶ Webinars in April to solicit resources
- ▶ Conference calls with corporate partners to memorialize the Community Sustainability Initiative (CSI) - voluntary agreement to participate in the community effort
- ▶ Action Plan - describes the overall project
- ▶ Performance Measures Plan (PMP) - describes all data collection and is, in itself, written as a collaborative effort between the partners
- ▶ Scoping Sessions are needed to help gain consensus on data collection
- ▶ Once PMP is finalized, data will be collected and reported out as described in the Performance Measures Plan

Alexandria Pineville MVD Roadmap

Activities -

- ▶ Finalize the Alexandria/Pineville Community Focus Action Plan
- ▶ Finalize Community Sustainability Initiative (CSI)
- ▶ Finalize the Performance Measures Plan
- ▶ Finalize/Conduct Sustainability Assessment (SA)
- ▶ Review/update SWPP (storm water pollution prevention plans)
- ▶ Conduct neighborhood sampling and review data as described in the Performance Measures Plan
- ▶ Conduct Community Engagement Projects (Healthy Schools, Healthy Homes, School Asthma Survey, ect.)
- ▶ Assist with property issue of Ruston Foundry / City of Alexandria
- report in Performance Measures Plan
- ▶ Assist with the formation of a Community Advisory Panel
- ▶ Set up Interactive Map at Local Library for information on all sites
